

SHA has been the first tech education school for vulnerable groups in Athens since 2017.

Identifying the digital skills gap in the Human Capital and Tech Industry's need for employees to handle technological tools led us to design tech education programs to build a bridge between people and the labor market.

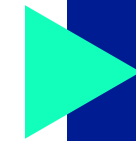

Our mission

is to support vulnerable groups, including refugees/migrants/unemployed, getting access to quality tech education leads to employment and a future-proof career.

Our vision

is to help create a world where solidarity prevails, and everyone enjoys equal opportunities by having access to quality education and the labor market.

Our Values

Inclusion

Community

Efficiency

Boldness

Commitment

Sustainable Development Goals

4 QUALITY EDUCATION

5 GENDER EQUALITY

8 DECENT WORK AND ECONOMIC GROWTH

10 REDUCED INEQUALITIES

17 PARTNERSHIPS FOR THE GOALS

LET'S BRIDGE THE GAP, HIRE OUR TALENTS!

In SHA, we believe in the power of collaboration and that:

"together we can do anything."

1

Our graduates are driven and resilient.

They overcame their vulnerable settings and chose to become Web developers.

2

Talents ready to roll.

They are empowered with the hard and soft skills needed to thrive in your industry.

3

Bring diversity to your team and lead the way.

Increase recognition and clear commitment towards your corporate social responsibility

Front End Web Development Career Track

1

Pre-Course

This pre-course is mandatory to start the next courses. It is an important guide to train the students on what they will get and start developing some coding skills!

2

Front-End Web Development

1. HTML
2. CSS
3. JavaScript
4. React
5. Serverless Architecture

3

Soft Skills

Our pedagogical approach also enables them with the soft skills needed to become great problem solvers and thrive in your industry.

4

How to get a DEV job

The 1-month job search course helps students walk through the uncertainties of finding a job.
